Facilities Officer

Engineering

Proposer: Caitlin Brooks

Secunder: Oliver Hope

I am running for Facilities Officer because I truly believe that I can make a significant impact in Hatfield College.

Whilst at Hatfield I have already become Hatfield's first Tech Manager. I have established a successful tech team and infrastructure. I am also a member of the Ents team, working on the Michaelmas Ball and Hatfield Sessions. On top of this, I developed the Anonymous Messaging app for Hatfield welfare and have worked with Durham Student Theatre.

As a result of this experience I can manage equipment efficiently, work closely with the current JCR and engage with members of staff in college. I am confident that I will be able to transfer these skills into becoming a successful Facilities Officer.

If elected I would like to...

- Introduce card payments to modernise our college bar for greater convenience
- Investigate the problems with the dining hall tap
- Improve laundry room facilities to prevent washed clothes from being left on the floor
- Ensure new gym facilities are fully functional and maintained
- Allow for uninterrupted access to all facilities, including the bar, during further college renovations
- Continue the development of the Hatfield tech team, improving the kit to allow for higher quality events
