

Abbie Cole, Welfare Officer, 1st Year

Proposed by: Qasim Salam

Seconded by: Elizabeth

Streatfeild-James

I have been a part of the welfare team this year and have enjoying it immensely. Through this placement on the team, I have shown my love for Hatfield and my desire to ensure the best possible welfare for each of its JCR members. I am approachable, understanding and reliable: I know that I will love to commit a great deal of my life in 2nd Year to Welfare.

Experience:

- > Tea and Toast President 2015/16
- > Open Day Rep 2016

What I would do:

- > Improve Livers-Out Welfare; arrange discreet drop-ins in off-college locations and send 'check-up' notes to Livers-Abroad
- > Place greater importance upon campaigns/awareness
- > Increase inclusion throughout college by running awareness weeks with the help of the Communities Officer throughout the year (black history, LGBTQ+ etc)
- > Maintain a strong Welfare team, with members that are fully committed to their roles
 - > Place a greater emphasis on different forms of mental health
 - > Work closely with the Livers-Out Rep to strengthen Parenting Night by holding parenting formals and other events
 - > Work off student feedback regarding campaigns to constantly drive new initiatives based on what the JCR want
- > Improve communication between JCR and senior staff in welfare and general college aspects
- > Create a 'mentor charter' with the help of the welfare team – ensuring there is clarity between what is expected from mentor
 - > Introduce basic welfare training for freps
